

# DEADLY CUTE

**DARK COLORS**  
Hard to see at night

**BAD FITTING MASKS**  
Hard to see, breathe  
or hear

**BAD FITTING COSTUMES**  
Most injuries from trips  
and falls

**DANGEROUS TREATS**  
Toys with small parts

**CANDLES**  
Keep away from kids

## TO HAVE FUN SAFELY

**COSTUMES:** Flame-resistant fabrics, such as polyester and nylon, are best. They should be brightly colored or trimmed with reflective tape to make them visible to motorists at dusk and in the dark.

**MASKS:** Check that eye holes are large enough to allow full visibility and nose holes allow for adequate breathing.

**CANDLES:** Keep candle-lit jack-o-lanterns and other decorations where children cannot brush against the flame. Try LED lights instead.

**TREATS:** Put reflective tape on treat bags. No toys with small parts for children under 3.
