STATEMENT OF WORK

NATIONAL ELECTRONIC INJURY SURVEILLANCE SYSTEM (NEISS)

1. DESCRIPTION OF SERVICES

The Contractor shall provide the Consumer Product Safety Commission (CPSC) with National Electronic Injury Surveillance System (NEISS) reports as specified in the contract line items and in accordance with the Performance Work Statement. These reports will be coded and transmitted to CPSC via an encrypted personal computer supplied by the Government.

2. SERVICES AND PRICES

The Contractor shall provide pricing in accordance with Block 20, Schedule of Supplies/Services for all contract line item numbers.

3. CONTRACT TYPE

This is a fixed price, not to exceed contract for injury surveillance reports. It includes a base period and option years as noted on form 1449.

4. BACKGROUND

- a. The U.S. Consumer Product Safety Commission (CPSC) administers the Consumer Product Safety Act, the Flammable Fabrics Act, the Federal Hazardous Substances Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, and the Consumer Product Safety Improvement Act.
- b. The primary purpose of these acts is to protect the public against unreasonable risks of injury or death associated with consumer products. The Consumer Product Safety Act specifically states that the Commission will conduct research, studies, and investigations on the safety of consumer products and offer training in product safety investigation and test methods.
- c. The Commission collects information on injuries associated with consumer products by several data systems, including the National Electronic Injury Surveillance System (NEISS). This system consists of statistically selected hospitals that report information on product-associated emergency room cases to the Commission on a daily basis. Some hospitals use an employee to identify and code the relevant information and to transmit it electronically to CPSC via an encrypted personal computer provided by CPSC. Other hospitals elect to allow a third party to identify, code and transmit the data. The data collected from the hospitals are compiled and provided to Commission analysts to identify consumer products that are associated with serious and/or prevalent injuries that are treated in hospital emergency departments. Since these data are collected from statistically selected hospitals, estimates can be projected to the national population as to the number and type of injuries involving individual consumer products. Manufacturers, distributors, retailers and consumers, as well as the Commission and other government agencies, use such data in de-identified form to assess the safety of consumer products, and to determine which products require further in-depth study to identify specific hazard patterns that may be associated with them.

- d. When a product is selected for more in-depth study, the Commission supplements the basic emergency room data collected through the NEISS with a follow-up inquiry on selected injuries. In such a case, the victim's name, address and telephone number is obtained by the Commission from the hospital. The victim (or parent of child victim) is contacted and, with his/her consent, information about the product's use and causal factors is obtained. (Patient identification is destroyed by the Commission when the inquiry is completed.) By combining this information with the basic emergency department surveillance data, the Commission can better understand consumer product-related accidental injuries and evaluate specific hazard and injury patterns together with potential corrective actions.
- e. The Consumer Product Safety Act provides that "No person shall be subject to civil liability to any person (other than the Commission or the United States) for disclosing information at the request of the Commission." 15 U.S.C. 2076(d).

5. OBJECTIVES

To provide the Commission with timely reports of consumer product-related injuries/deaths from the statistically selected hospitals who comprise the National Electronic Injury Surveillance System (NEISS). The reports, which provide the Commission the means for generating injury estimates of emergency visits for the United States and its territories, are used by the Commission:

- a) to study, analyze and investigate injuries associated with consumer products;
- b) to evaluate the effectiveness of regulations and standards, voluntary and mandatory, and other Commission actions (education programs, recalls, etc.); and
- c) to ascertain trends concerning new hazard/injury patterns.

6. PERFORMANCE WORK STATEMENT

Independently, and not as an agent of the U.S. Consumer Product Safety Commission (CPSC), the Contractor shall provide the CPSC representative the cooperation and facilities, except as provided in Section 10, GOVERNMENT FURNISHED MATERIALS/EQUIPMENT, necessary to electronically transmit, in a timely manner not to exceed 5 days, data on specified cases treated in the hospital's emergency department.

a. NEISS SURVEILLANCE REPORTS

- (1) The hospital shall establish a control system within the hospital to record on its emergency case records the patient's age, sex, diagnosis, body part affected, disposition, product(s) involved (if any), location of accident or incident (if any), and such other information as may be specified in the NEISS Coding Manual and in special survey instructions. A brief description of each accident or incident shall also be recorded; e.g., "fell off bicycle." Product brand names must be recorded whenever obtainable. The hospital shall solicit this information during the patient interview or treatment.

- (2) The hospital shall:
 - (a) Permit a representative of CPSC, in whose selection the hospital concurs, to review the hospital emergency case records in a timely manner, not to exceed 5 days.
 - (b) The hospital shall have the right to approve or disapprove of the CPSC representative.
 - (c) Allow the CPSC representative to code all in-scope cases on a daily basis in accordance with the NEISS Coding Manual provided by the Government, and any special survey or other instructions. The emergency department records are to be made available in a timely manner not to exceed 5 days to the CPSC representative or as soon as possible.
- (3) In-scope cases are consumer product-related cases as specified in the NEISS Coding Manual, and other categories of cases that CPSC may add on behalf of other Federal agencies.
- (4) When the CPSC representative is notified by CPSC, by telephone or Personal computer, that a specific transmitted case is one of the occasional cases selected for a follow-up inquiry, the hospital shall allow the CPSC representative to supply the name, address and telephone number of the patient to the CPSC if the hospital allows such information to be supplied. No additional payment will be made to the hospital for supplying this information. Follow-up inquiries will be performed by telephone or in person by representatives of CPSC or other Federal agencies. Such inquiries will only be performed on a small fraction of the hospital's reported injury cases, i.e., approximately 1%. Patient identification information will only be supplied to trained interviewers to permit them to gather additional etiologic or epidemiologic data about selected cases from the patient, relatives, or other individuals who might be aware of the detailed circumstances surrounding an injury. CPSC will keep the information as to identity of the victim confidential and remove patient identification information from reports and documents maintained by CPSC. CPSC will not supply patient identification information to other agencies without prior patient consent.

(5) SPECIAL SURVEY REPORTS

CPSC may, from time to time, request the Contractor to temporarily provide additional information beyond that specified in the NEISS Coding Manual, (e.g., approximately 2 weeks before and after July 4th, CPSC requests the specific type of fireworks involved be noted in the narrative) in support of a special survey. Not more than six (6) special surveys will be conducted by CPSC during a one-year period and each survey will normally run for a one-month period. Cases identified as part of special surveys will not constitute more than 5 percent of the total product-related cases to be reported by the Contractor during the performance period. Instructions pertaining to each special survey will be provided to the hospital and the CPSC representative approximately two (2) weeks in advance of each

survey. Patient identification will not be required except for occasional cases selected for a follow-up inquiry as described in 6.a.(4). CPSC will reimburse the hospital for these special survey reports at the same price as regular Surveillance Reports.

- (6) The hospital shall provide a reasonable amount of workspace at which the CPSC representative can perform the review and coding of cases.
- (7) The hospital shall provide a parking space for the CPSC representative's automobile.
- (8) The hospital shall allow the CPSC representative to use a telephone while on the hospital premises. Any costs incurred by the CPSC representative for long distance calls will be paid by the CPSC representative.
- (9) The hospital shall permit the CPSC representative to perform the functions described above.
- (10) ALL TRAUMA REPORTING

In order to provide information on ALL trauma injury cases seen/treated in the emergency department, the definition of in-scope cases is hereby broadened (see Paragraph 6.A.2.c). The Contractor shall report ALL trauma injury cases seen/treated in the emergency department, as described in the attached sheet entitled "Expanded National Electronic Injury Surveillance System (NEISS) Reporting Rule".

b. SUPPLEMENTAL/SPECIAL STUDY REPORTS

The Commission may enter into formalized agreements with other Federal agencies to collect and assemble information through the NEISS to carry out special inquiries on injuries that would be of particular interest to the other agency. In these instances only, the definition of in-scope cases may be broadened and the CPSC representative shall code and transmit additional cases in accordance with additional coding instructions to be issued by the CPSC Contracting Officer Representative (COR). The hospital shall provide access to the information required.

c. ORIENTATION AND TRAINING

CPSC will provide NEISS orientation and training to all involved Contractor personnel. The hospital and the CPSC representative shall make available his/her personnel for training immediately after contract award and as personnel are replaced. This training will be accomplished at the hospital site at a time convenient to each of the hospital's staff, CPSC representative, and CPSC trainer.

d. PERIODIC MEETINGS

The hospital and the CPSC representative shall arrange periodic meetings, at least monthly, with hospital emergency department and other staff involved with the injury surveillance activity for the contract in order to promote effective injury reporting and awareness

of product safety issues. Such meetings shall be planned and implemented in coordination with the hospital administration.

e. DUTIES OF THE CPSC REPRESENTATIVE

For the hospital's information, the duties of the CPSC representative are as follows:

- (1) The CPSC representative, with the hospital's assistance, will help establish a control system within the hospital to ensure that injuries treated, or otherwise processed in the hospital, will be reported in the detail specified herein.
- (2) The CPSC representative will furnish reports to CPSC in accordance with specific instructions contained in the NEISS Coding Manual and other instructions.
- (3) The CPSC representative will make an individual report of each in-scope injury by using an encrypted personal computer furnished by the Commission. All costs of the equipment will be borne by the Commission. The data are recorded according to specific instructions provided in the coding instructions.
- (4) The CPSC representative will maintain an accounting of transmitted data and provide the hospital with regular reports of data submitted for billing purposes.
- (5) The CPSC representative will conduct liaison with hospital staff to promote accurate and complete recording of product-related injury information.
- (6) The CPSC representative will complete the data coding and transmission to CPSC in accordance with Section 6.a, NEISS SURVEILLANCE REPORTS, and Section 6.b., SUPPLEMENTAL/SPECIAL STUDY REPORTS.
- (7) All Contractor personnel shall comply with the mandatory drug testing requirements of the hospital at which they are performing.

7. PERIOD OF PERFORMANCE

The period of performance shall be as listed on the schedule, Standard Form 1449.

8. ACCEPTANCE OF DATA

- B. Acceptance or rejection of data submitted shall be based on conformance with the NEISS Coding Manual or other coding instructions issued by CPSC, and the Performance Work Statement.
- C. Notice of approval/rejection will be transmitted by Commission personnel in the Division of Hazard and Injury Data Systems, Directorate for

Epidemiology via the encrypted personal computer in the form of "NEISS Error Messages" to the Contractor. The Contractor shall correct and resubmit any rejected data to CPSC within three (3) working days after notice of rejection at no additional cost to the Government.

11. LOCAL CLAUSES

LC 21A DISCLOSURE OF INFORMATION - LIMITS ON PUBLICATION

- a. The Contractor shall submit to the Commission any report, manuscript or other document containing the results of work performed under this contract, before such document is published or otherwise disclosed to the public, to assure compliance with Section 6(b) of the Consumer Product Safety Act 15 U.S.C. Section 2055(b)), Commission regulations (16 C.F.R. Part 1101), and a Commission directive (Order 1450.2). These provisions restrict disclosure by Commission Contractors of information that (1) permits the public to identify particular consumer products or (2) reflects on the safety of a class of consumer products. Prior submission allows the Commission staff to review the Contractor's information and comply with the applicable restrictions. CPSC should be advised of the Contractor's desire to submit or publish an abstract or a report as soon as practical.
- b. Any publication of, or publicity pertaining to, the Contractor's document shall include the following:

"This project has been partially funded with federal funds from the United States Consumer Product Safety Commission under this contract. The content of this publication does not necessarily reflect the views of the Commission, nor does mention of trade names, commercial products, or organizations imply endorsement by the Commission."

LC 24 Nondisclosure of any Data Developed Under this Contract

- a. The Contractor agrees that it and its employees will not disclose any data obtained or developed under this contract to third parties without the consent of the U. S. Consumer Product Safety Commission Contracting Officer Representative (COR).
- b. The Contractor shall obtain an agreement of non-disclosure from each employee who will work on this contract or have access to data obtained or developed under this contract.

LC 31 Restrictions on Use of Information

- a. If the Contractor, in the performance of this contract, obtains access to information such as CPSC plans, reports, studies, data protected by the Privacy Act of 1974 (5 U.S.C. 552a), or personal identifying information which has not been released or otherwise made public, the Contractor agrees that without prior written approval of the Contracting Officer it shall not: (a) release or disclose such information, (b) discuss or use such information for any private purpose, (c) share this information with any other party, or (d) submit an unsolicited proposal based on such information. These restrictions will remain in place unless such information is made available to the public by the Government.
- b. In addition, the Contractor agrees that to the extent it collects data on behalf of CPSC, or is given access to, proprietary data, data

protected by the Privacy Act of 1974, or other confidential or privileged technical, business, financial, or personal identifying information during performance of this contract, that it shall not disclose such data. The Contractor shall keep the information secure, protect such data to prevent loss or dissemination, and treat such information in accordance with any restrictions imposed on such information.

LC35 NOT TO EXCEED

This contract is issued on a "NOT TO EXCEED" basis because it is not possible to determine the exact quantities/services that will be required during performance of the contract. The total expended amount under the contract shall not exceed the grand total of the not to exceed amount indicated by the applicable line item, nor is the Contractor entitled to perform work and expect reimbursement beyond that amount, without approval of the Contracting Officer. The COR must provide the Contracting Officer with a revised quantity, "Not to Exceed" total, and funding to process a modification to the contract. The Contractor is not authorized to invoice and/or receive payment for additional work above the specified contract total without receipt of a formal, written modification to the contract.

12. SPECIAL CLAUSES

PRIVACY ACT

This contract does not require the Contractor to maintain a system of records as defined in the Privacy Act of 1974. More specifically, the Contractor is not required to, and agrees not to, maintain any system of records for or on behalf of the U.S. Consumer Product Safety Commission, in which any records or any personal data are indexed by, or retrieved by, a person's name, social security number, or any other unique identification.

SEAT BELT USE

In an effort to reduce deaths and injuries resulting from motor vehicle accidents, President Clinton has issued Executive Order 13043 requiring the use of seat belts by federal employees while on official government business. The Executive Order also encourages federal contractors, subcontractors, and grantees to adopt and enforce on-the-job seat belt policies and programs for their employees when operating government-owned or leased vehicles, company-owned, rented, or personally-owned vehicles.

52-217-08 OPTION TO EXTEND SERVICES (Nov 1999)

The Government may require continued performance of any services at the rates specified in the contract. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 30 days before the contract is to expire.

52.217-09 OPTION TO EXTEND THE TERM OF THE CONTRACT (Mar 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor within fifteen (15) days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least thirty (30) days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

52.232-18 AVAILABILITY OF FUNDS (Apr 1984)

The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

13. 52.204-13 System for Award Management Maintenance - (Oct 2016)

(a) Definitions. As used in this clause-

"Electronic Funds Transfer (EFT) indicator" means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

"Registered in the System for Award Management (SAM) database" means that-

(1) The Contractor has entered all mandatory information, including the unique entity identifier and the EFT indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM database;

(2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record "Active".

"System for Award Management (SAM)" means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes—

- (1) Data collected from prospective Federal awardees required for the conduct of business with the Government;
- (2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and
- (3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

"Unique entity identifier" means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b) The Contractor is responsible for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis, from the date of initial registration or subsequent updates, its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(c)

(1)

(i) If a Contractor has legally changed its business name, doing business as name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to—

- (A) Change the name in the SAM database;
- (B) Comply with the requirements of subpart 42.12 of the FAR; and
- (C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor shall provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (c)(1)(i) of this clause, or fails to perform the agreement at paragraph (c)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM. Information

(h) Patent indemnity. The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the SAM database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. (i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

CPSC Contracting Officer's Representative (COR) Designation Letter

COR Name: Dennis B. Wierdak

CPSC Contract No.: CPSC-N-17-0012

A. DESIGNATION OF COR

As a Contracting Officer (CO), I am responsible for ensuring and safeguarding the interests of the United States in its contractual relationships pursuant to the Federal Acquisition Regulation (FAR, 48 CFR Chapter 1) and agency policies. To assist in fulfilling these responsibilities, I hereby designate you as the Contracting Officer's Representative (COR) for this contract. You are in a unique position to monitor how well the contractor is progressing towards achieving the contract's purpose and will be responsible for being the technical liaison between the contractor and the Contracting Officer, which is critical to ensuring good contract performance.

As COR, your first responsibility is to read the entire contract and thoroughly acquaint yourself with the requirements it places on the contractor, the CO, and the COR. You should also periodically review the contract to maintain your familiarity with its terms and conditions.

This letter confirms that you are a government employee and are certified as a COR in accordance with the current Office of Management Budget memorandum on the Federal Acquisition Certification for Contracting Officer's Representatives (FAC-COR) guidance. As the COR you shall maintain the appropriate certification level as described in CPSC Directive No. 1521.1. This designation is not redelegable. As the designated COR, you may be personally liable for unauthorized acts. This designation is valid throughout the contract period cited in the contract.

B. COR LIMITATIONS

As the COR, you have no authority to make any commitments or changes that affect price, quality, quantity, delivery or other terms and conditions of the contract nor in any way direct the contractor or its subcontractors to operate in conflict with the contract terms and conditions. Only a CO has the authority to take such actions. You may be held personally liable, and may be subject to disciplinary action, for unauthorized actions, particularly if the action is determined to be a violation of the

Anti-Deficiency Act. You may only take actions that are within the authority provided in this letter of designation.

C. COR DUTIES AND RESPONSIBILITIES

You are designated and authorized to perform specific technical and administrative functions under this contract. As CO, I hereby delegate to you the following duties and responsibilities that are otherwise my responsibility:

1. Develop the contract specifications and/or performance work statement in such a manner as to promote competitive procurement actions.
2. Coordinate with the program office to ensure that technical requirements are incorporated into the resulting contract specifications and/or performance work statement.
3. Identify measurable performance objectives.
4. Identify potential contractors.
5. Perform technical evaluations as required.
6. Arrange for any required government-furnished equipment or facilities.
7. Ensure that the contractor has any necessary clearances to access the facility and data required by the contract.
8. Monitor and document contractor technical performance to assure that the contract terms and conditions are fully met and within the scope of the contract.
9. Inform the Contracting Officer when a contractor has not met contract requirements and coordinate with the Contracting Officer on any required corrective action.
10. Assist the Contracting Officer in the resolution of technical problems encountered during performance.
11. Submit performance reports in accordance with the Contractor Performance Assessment Reporting System (CPARS) requirements and agency policy.
12. Ensure that any requested changes to the resulting contract are formally effected by a written modification issued by the Contracting Officer before the contractor proceeds with the changes.
13. Perform inspection, acceptance or rejection of all deliverables in accordance with the terms of the contract.
14. Review and approve or disapprove the contractor requests for payment (invoice) to ensure that the invoice accurately reflects the service completed or product received in accordance with the requirements of the contract.
15. Maintain a contract working file that includes this designation letter, a copy of the contract award, modifications, correspondence, records of inspection, performance meetings, invoices and other documents describing the COR's duties,

responsibilities and actions taken in accordance with this delegation of authority.
This file is subject to review by the Contracting Officer.

D. STANDARDS OF CONDUCT AND CONFLICTS OF INTEREST

As the COR you are responsible for protecting the U.S. Government's interests, while supporting its reputation for fair and equal dealings with all partners, including contractors. Therefore, if you have any direct or indirect financial interests that may place you in a position where there is a conflict between your private interests and the public interest of the United States, you must immediately inform your supervisor, the Contracting Officer and the Office of General Counsel.
