VISUAL INFORMATION SYSTEM – STATEMENT OF WORK
(Integrate IFS modules to Consumer Product Safety Risk Management System)

1. BACKGROUND INFORMATION

This task involves integration of the current Integrated Field System (IFS) application, a client server environment, with Consumer Product Safety Risk Management System (CPSRMS). These services are required for the continuing expansion and enhancement of the agency's Publicly Available Consumer Product Safety Information Database. The senior level programmers shall work with the Division of Technology Services (ITIS) to ensure programming and database guidelines are met.

2. TASK ORDER

This is a firm-fixed price Task Order based on the firm fixed price fully loaded hourly rate for the hours indicated on schedule of services/supplies.

3. PERFORMANCE WORK STATEMENT

(1) The contractor shall work independently, and not as an agent of the Government, the Contractor shall furnish all necessary personnel, materials, and services to perform the work set forth below. The purpose of this task is to integrate the following modules in IFS with CPSRMS

- Generic functionalities:
  1. Firm/Manufacturer and contact search, add and update
  2. Product, violation, hazard search
  3. Narratives add and update
  4. Investigative Guidelines search
- Assignment:
  1. Assignment record search
  2. Create, reassign, update and purge assignment
  3. Clone existing assignment
  4. Create, update multiple assignment data sheet
- Sample:
  1. Integrate sample collection report with sample tracking system, incident analysis and investigation in CPSRMS
  2. Create, update and delete sample
  3. Provide sample testing results for public search
  4. Implement the sample destruction procedure
- Recall:
  1. Create, update and delete Recall effectiveness check
  2. Create, update and delete monthly recall progress check
  3. Implement the automate workflow for publishing recall press release
  4. Recall API and RSS feed
- Export Notification:
  1. Integrate with ITDS (International Trade Data System) to get the real time product export and import information
  2. Integrate with Regulatory Information Exchange Environment to effective provide the product recall and export information

(2) The contractor shall meet with the application users and the CPSC Project officer to gather information on the requirements for developing a written work plan that can include but not be limited to the following:

- Design SQL server tables, fields, stored procedures and SSIS.
- Program the coding of .NET
- Create IFS screens using the preferred look and feel of CPSRMS standards

(3) The Contractor shall submit the following reports by email to the Project Officer:
• Written Status Reports shall be provided on a weekly basis.

(1) Format:

   Letter format or meeting

(2) Content:

   (a) Major accomplishments and progress.
   (b) Description of any problems encountered.

• Written Status Reports shall be provided on a monthly basis for all services performed during the report period. The report shall be emailed to the Project Officer by the 10th day of the following month.

(1) Format:

   (a) Letter format.
   (b) Typewritten and reproducible.

(2) Content:

   (a) Major accomplishments and progress.
   (b) Description of any problems encountered.
   (c) Number of hours worked during the report period.
   (d) The contract number pursuant to which the report is prepared.
   (e) The name of the Contractor preparing the report pursuant to such contract.

(4) The contractor shall keep a record of all work performed, by utilizing the TFS system where all assignments are recorded.

4. INSPECTION AND ACCEPTANCE OF DELIVERABLES

a. The Government will inspect the work and notify the contract individual orally regarding problems and the correction needed. If satisfactory correction is not made, the Contractor will be notified in writing of the problems with the work.

b. All materials submitted for approval will be reviewed by the Project Officer within 5 working days after date of receipt.

c. Acceptance/rejection will be transmitted to the Contractor by the Project Officer, in writing, within 5 working days after review of (goods or services.)

d. Acceptance/rejection will be based on conformance with this Statement of Work.

e. All work performed for CPSC will become the property of CPSC. After CPSC acceptance by the CPSC Project Officer of the tested databases and programming, the Contractor shall deliver the source code, program executables and database procedures in electronic form and store them on CPSC's system libraries for all applications and provide CPSC written permission to use them.

f. The following items shall be performed or delivered in accordance with the following schedule:

<table>
<thead>
<tr>
<th>Deliverable Requirements:</th>

</tbody>
</table>

### 5. PERIOD OF PERFORMANCE

The period of performance shall be from September 29, 2011 through May 28, 2012, eight (8) months.

### 6. GOVERNMENT FURNISHED MATERIALS:

The Government will supply all materials, such as a workstation (including computer hardware and software, and phone), network and internet access, documents describing web maintenance procedures, and any other items necessary to perform the work.

### 7. PLACE OF PERFORMANCE:

Consumer Product Safety Commission  
Division of Information Technology Services  
4330 East West Highway  
Room 504  
Bethesda, Maryland 20814

### 8. HOURS OF PERFORMANCE: Services shall be performed Monday through Friday during the CPSC core hours of 7:30 am – 4:00 pm weekends and holidays excluded.

### 9. CONTRACTOR PERSONNEL:

a. The contractor shall be responsible for satisfactory standards of employee competency, conduct and integrity. The contractor's employees must be presentable in appearance (i.e. clean, un-torn appropriate attire and exercise good personal hygiene). The contractor shall be responsible for taking disciplinary actions including suspension and termination with respect to contractor employees as may be necessary. At all times while on CPSC's premises, the contractor shall comply with all rules and regulations governing the conduct of personnel on Government Property.

b. CPSC reserves the right to have the contractor remove any of its employees, for any reason including failure to comply with any terms of this call or observed failure to provide satisfactory service to the Government.
10. LC 5B PROJECT OFFICER DESIGNATION:

a. The following individual has been designated at the Government's Project Officer for this contract:
   Name: Li Wang
   Division: Information Technology Services
   Telephone: 301-504-6963
   Email: lwang@cpsc.gov

b. The CPSC Project Officer is responsible for:

   (1) monitoring the Contractor's technical progress, including surveillance and assessment of performance, and
       notifying the Contracting Officer within one week when deliverables (including reports) are not received on
       schedule in accordance with the prescribed delivery schedule.

   (2) performing technical evaluation as required, assisting the Contractor in the resolution of technical problems
       encountered during performance; and

   (3) inspection and acceptance of all items required by the contract.

c. The Project Officer is not authorized to and shall not:

   (1) make changes in scope of work, contract schedules, and/or specifications to meet changes and
       requirements,

   (2) direct or negotiate any change in the terms, conditions, or amounts cited in the contract; and

   (3) take any action that commits the Government or could lead to a claim against the Government.

d. A clear distinction is made between Government and Contractor personnel. No employer-employee
   relationship will occur between government employees and contractor employees. Contractor employees must
   report directly to their company (employer) and shall not report to Government personnel.
