1. DESCRIPTION OF SERVICES
The contractor shall provide all technical support services to “Update the Budget Application Enhancement” in accordance with the terms and conditions of the delivery order contract CPSC-D-13-0001. The contractor shall perform the work of this task order for the U.S. Consumer Product Safety Commission (CPSC) Headquarters located at 4330 East West Highway Bethesda, Maryland.

2. TASK ORDER TYPE
This procurement is a firm-fixed price task order. This is a non-personal services task order.

3. BACKGROUND AND OBJECTIVE
Since the late 1990s, OMB has loaded agency accounting data into the Program and Financing (P&F) Schedule of the President’s Budget. This process has improved the quality of accounting and budget data and saved significant workload across the government. OMB is now evaluating whether to handle the Object Class Schedule in a similar manner – by asking agencies to assess their ability to report object class data from their accounting systems.

The passage of the Digital Accountability and Transparency Act (DATA Act), which requires object class reporting, is an important prompt to Budget Data Request No 14-29. OMB and Treasury expect that the “lessons learned” – in conjunction with Treasury’s pilot to test data exchange standards – will be helpful when developing an approach to handle object class reporting in accordance with the DATA Act. Office of Budget requires enhancement to the budget application in order to comply with Budget Data Request No 14-29. The agency’s ability to report object class data by Treasury Appropriation Fund Symbol (TAFS) as it is impractical at this time to report detailed budgetary accounting data for FY14.
