FOCUS GROUP – CONSUMER PRODUCT SAFETY COMMISSION
PUBLIC DATABASE

1. BACKGROUND:

(1) The Consumer Product Safety Commission (CPSC) protects the public against unreasonable risks of injury associated with consumer products. In 2008, Congress passed the Consumer Product Safety Improvement Act (CPSIA) that required CPSC to create a searchable database of reports of harm from consumer products. Specifically, the database must include reports of harm from:

a) consumers;
b) local, State, and Federal government agencies;
c) health care professionals;
d) child care providers;
e) public safety entities.

(2) Once the database is online, each of these constituencies will fill out thousands of reports of harm each year. CPSC seeks to solicit feedback on proposed reporting forms to help inform our database and user interface design. The information the Commission seeks to solicit includes:

a) whether each form includes every useful data field, including data fields specific to each profession;
b) whether each form requests each field in the optimal sequence;
c) whether each form uses drop-down menus and other techniques to ensure data integrity;
d) how long it takes a user to complete each form and the percentage drop-off CPSC might expect from users who fail to complete each form, and the relationship between those two variables;
e) whether the public reporting form adequately supports minors who might be completing a form on behalf of a consenting adult;
f) whether the forms support users who prefer to complete the forms in languages other than English;
g) other feedback that would help us design intuitive and thorough reporting forms.

2. DESCRIPTION OF SERVICES:

(1) The contractor shall organize, conduct and summarize findings from three (3) or more Focus Groups on feedback from end users of the searchable public database called for in the Consumer Product Safety Improvement Act (CPSIA) and in accordance with the Statement of Work. The U.S. Consumer Product Safety Commission's (CPSC) Project Officer will provide government furnished property.

3. CONTRACT TYPE:
This is a firm fixed price contract for services in accordance with the attached Statement of Work.

4. OBJECTIVES:

The objectives of this procurement are:

a. To seek feedback from ordinary consumers and other specialized professionals, end users, that are identified in the CPSIA on the completeness and ease of use of the proposed incident reporting forms and other forms related to the public database. The contractor shall conduct at least three (3) Focus Groups which will commence in May 2010, July 2010 and August 2010. These databases are subject to change to align with the CPSRMS schedule, with at least one group comprised of parents of young children focused on children’s products. The contractor shall work with the CPSC’s Project Officer to determine how the subjects will be solicited and the format and questions that will be used to conduct the Focus Groups. The groups will be audio taped and videotaped and the tapes shall be made available to the CPSC. The Contractor will provide CPSC with a written final report including a summary of the findings and conclusive statements and recommendations based on study findings as well as the interpretation of the moderator/project analyst who is knowledgeable in the area of consumer behavior.

5. STATEMENT OF WORK:

a. Independently, and not as an agent of the Consumer Product Safety Commission (CPSC), the Contractor shall furnish all necessary personnel, materials, services, and facilities to perform the specific work set forth below.

c. Contractor shall support the assurance of confidentiality, none of the participants will be specifically identified by their full name. To facilitate open conversations, individual’s first names will be used during the session and therefore may be recorded on the audio and video tapes. However, the audio and video tapes will not be released to the public. Only demographic information will be generalized in the final report and none of the responses in the final report will be attributed to any specific individual. The contractor for the focus groups will include specific guidance for the security and privacy of the participants and their contact information. Upon completion of the contract the contractor shall be required to return all previously provided databases and will provide documentation demonstrating that no other copies and references to the personal data of the potential and actual focus group participants is maintained. Upon approval of the final report, the contractor shall provide all copies of audio/video data collected for this contract.
