STATEMENT OF WORK

Review of Compliance: Virginia Graeme Baker Pool and Spa Safety Act
Public Law No. 110.140

I. Background Information

On December 19, 2007, the President signed into law the Virginia Graeme Baker Pool
and Spa Safety Act (VGBA or Act), named after the daughter of Nancy Baker and the
granddaughter of former Secretary of State James Baker. Graeme Baker died in a tragic
incident in June 2002 after the suction from a spa drain entrapped her under water. The
legislation that ultimately resulted in this Act was first introduced by Rep. Debbie
Wasserman-Schultz (FL) and was supported by the Baker family and Safe Kids
Worldwide.

In recent years, there have been an annual average of 283 drowning deaths (2003-2005)
and 2,700 emergency room-treated submersion injuries (2005-2007) involving children
younger than 5 in pools and spas. In addition, from 1997-2007, there were 74 reported
incidents associated with suction entrapment, including 9 deaths and 63 injuries. The
new law is aimed at reducing these deaths and injuries by making pools safer, securing
the environment around them, and educating consumers and industry on pool safety.

The Act specifies that on or after December 19, 2008, swimming pool and spa drain
covers manufactured, distributed, or entered into commerce in the United States must
meet specific performance requirements. Additionally, public swimming pools, wading
pools, spas and hot tubs must be equipped with drain covers meeting these performance
requirements. Drain covers meeting the new requirements are now making their way into
the marketplace. Additionally, in certain instances, public pools and spas must have
secondary or back-up devices or systems designed to prevent suction entrapment.

II. Authority

Section 29(a) of the Consumer Product Safety Act, 15.U.S.C. 2078(a), requires the
Commission to establish a program to promote Federal-State cooperation for the
purposes of carrying out this Act.

Section 29(a) (1) provides that the Commission can accept from any State or local
authorities engaged in activities relating to health, safety, or consumer protection
“assistance in such functions as injury data collection, investigation, and educational
programs, as well as other assistance in the administration and enforcement of the Act…
and, if so agreed, may pay in advance or otherwise for the reasonable cost of such
assistance…”

III. Objective
The objective of this program is to conduct a review of compliance with Section 1404 of the VGBA. In order to review compliance with the new law, State and local officials shall conduct visits to a limited number of pools or spas to determine if the requirements have been met. Documentation and photographs must be provided evidencing compliance or non-compliance with the law. A U.S. Consumer Product Safety Commission (CPSC) Compliance Officer will follow up with the pool owner and/or operators as needed for the appropriate corrective action.

IV. Specifications

Independently, and not as an agent of CPSC, the contractor shall furnish the necessary personnel, materials, services and facilities to perform the work set forth below, except, as specified in Section XVI, Government-Furnished Supplies/Equipment.

V. Work Statement

A. The contractor shall contact and visit a minimum of fifty (50) pool sites with the State of Kentucky to conduct an onsite inspection to verify compliance of Section 1404 of the VGBA. It shall be noted that each location shall be considered one pool inspection site regardless of the number of pools or spas located at the site. Inspection forms and any necessary training will be provided to the contractor by the CPSC Project Officer. The contractor will provide a proposed list of sites to the Project Officer for approval. The Project Officer will approve or modify the list of inspections sites in writing.

B. The contractor shall develop a proposed list of pool sites for inspection in the designated jurisdiction and submit the list with the proposal. The list shall also include the population of the area where the pool is located. Approval from CPSC Project Officer to the contractor will be transmitted electronically.

C. Contractor Requirements and Qualifications

The contractor shall be a State or local government entity with delegated authority and/or jurisdiction for inspecting pools and spas in the State. Personnel performing inspections shall be regular employees of the contractor. Personnel performing inspections shall possess the following minimum qualifications:

1. The contractor must provide documentation evidencing they are recognized by the State or local government as an inspector with delegated authority and/or jurisdiction for inspecting pools and spas in the State.
2. Knowledge of swimming pool circulation systems and equipment; and
3. Knowledge of the VGBA and the minimum requirements that are needed for compliance with the law.

D. Limitations on Subcontracting

Due to the requirement set forth in paragraphs C and E, work cannot be subcontracted to a commercial entity. Should the State or local government entity
If a contractor wishes to subcontract to another State or local government entity to perform a portion of the work, personnel must still meet all of the requirements of these paragraphs and the contractor must obtain prior approval, in writing, from the CPSC Project Officer for any subcontract arrangement. CPSC’s contractual relationship will be with the prime contractor only. If any subcontracting occurs, the contractor is responsible for all oversight of, performance requirements of, and payment to, any subcontractor.

E. Commissioning and Credentialing of State and Local Officials
All State and local officials performing inspections of pools and spas pursuant to the Statement of Work shall be Commissioned and issued credentials in accordance with CPSC Directive 0870.2. Commissioning is the legal delegation of authority to State and local officials to accomplish mutually agreed upon tasks to promote consumer product safety. Credentials are a means of official identification and authorize an individual to administer oaths and affirmations and act for the Chairman in the performance of duties provided for in the laws and regulations administered by the Commission. Credentials are issued only to commissioned individuals who require them to perform official duties. Credentials are “For Official Use Only” and shall not be used as a means of personal identification or for personal purposes. After the contract is awarded, the CPSC Project Officer will coordinate with the contractor to facilitate issuance of credentials to delegated State and local officials that will perform inspections under the Statement of Work.

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government’s reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day’s written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor’s CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at: https://www.bcgov/sb or by calling 1-888-227-2423 or 269-961-5757.
