CPSC.GOV WEBSITE AUDIT STATEMENT OF WORK

Overview

The U.S. Consumer Product Safety Commission (CPSC) has redesigned its main website, CPSC.gov using the EPiServer Content Management System. CPSC seeks an independent audit of the website implementation of EPiServer to review all aspects of the code and implementation, to analyze how the implementation compares to best practices, and to provide recommendations for moving forward to bring the system up to expectations outlined in the original site design. CPSC seeks to maximize its use of the features available in EPiServer with regard to end-user-functionality, template creation, content delivery, author functionality and extensibility for both platform upgrades and future website enhancements.

Tasks

The contractor shall:

1. Conduct a comprehensive review of CPSC.gov against standard best practices of an EPiServer implementation and report on issues outside of these standards.
2. Review the implementation of the infrastructure as it pertains to the sandbox, staging and production environments and shall include a review of the load balancing, switches, web servers and SQL server implementations and identify any issues in regard to these items.
3. Conduct a front-end review of the EPiServer implementation. This review shall include a deep look at the HTML, CSS, Javascript, browser compliance, 508 compliance, interactive databases (MYSQL), forms and search integration.
4. Review the application and content level security and identify any security holes or issues, if any.
5. Review and evaluate the CMS architecture and identify any issues regarding the structure and implementation of the content tree, content template/attribute structure, content re-use and metadata.
6. Review and evaluate the code organization, all hardcoding, the page template structure and the use of object orientation principles and identify any issues in regard to these items.
7. Review and identify any code structure or implementation issues that could affect the overall performance of the website and identify any performance and optimization opportunities.
8. Provide on-going findings and recommendations, and provide an itemized list of all items reviewed, their adherence with best practices in an EPiServer implementation and recommendations and modifications going forward, including repairs. The contractor shall assign a priority or severity value for each recommendation. The contractor shall provide hour estimates for repairing each issue along with an explanation of the gains that would be obtained by implementing the repair.
9. The contractor shall perform their audit work in an environment that is set up on the contractor's servers to mimic the current CPSC environment, which includes the following elements: development (one server), QA (one server), staging (one server), and production (two load-balanced servers) environments.

Period of Performance

All work shall be completed within 60 days after date of award.

Mandatory Technical Requirements

1. The contactor must be an EPiServer partner.
2. Contract staff working on this project shall have EPiServer certification.
3. Contract staff working on this project shall have a minimum of three years of technical experience with the EPiServer content management system.
4. The contractor shall have three years of experience working with large-scale, enterprise level technology implementations of websites.

The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions. The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) Excusable delays. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(h) Patent indemnity. The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(5) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected contract line item or sub-line item, if applicable; and

(D) Contractor point of contact.

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

- (v) Amounts shall be due at the earliest of the following dates:
 - (A) The date fixed under this contract.
 - (B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.
- (vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—
 - (A) The date on which the designated office receives payment from the Contractor;
 - (B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or
 - (C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.
- (vii) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.
- (j) Risk of loss. Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

- (9) The specification.

(t) Central Contractor Registration (CCR).

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer.

The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via CCR accessed through <https://www.acquisition.gov> or by calling 1-888-227-2423 or 269-961-5757.
