

Manufacturer: MAC Closures Inc.  
Model: MACDuma  
ASTM Type: IA

Description:

This is a two-piece plastic/plastic continuously-threaded closure (Figure 1).

Figure 1

The closure is opened by pushing down on the closure and simultaneously turning it counterclockwise. There are two sets of manufacturer's instructions for this closure (Figure 1).

One set of the manufacturer's instructions on the closure are (Figure 2):

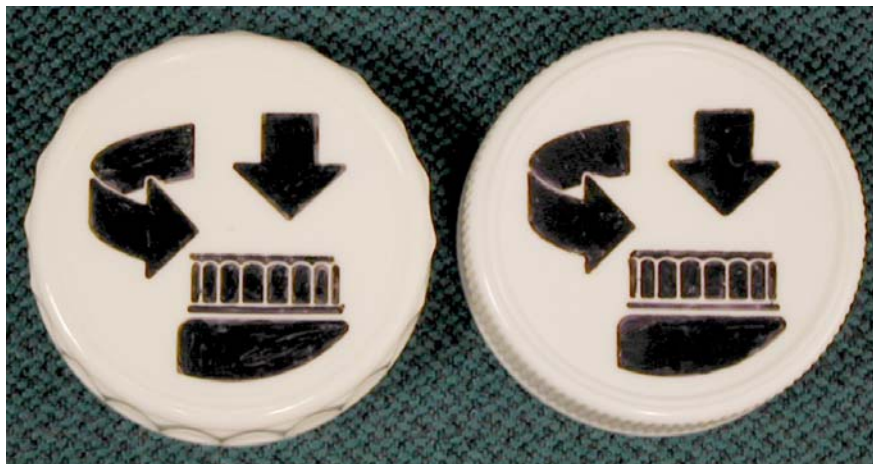

Figure 2

(This is a pictorial overcap. There is a picture of a closure with an arrow pointing down on the closure in the picture and another arrow pointing counterclockwise towards the closure in the picture.) This closure comes either with either scalloped or fine line ribs.

Another example of the instructions for this closure are shown in Figure 3:

Figure 3

Both French and English instructions are given, however French only or English only instructions can be given.
