

Manufacturer: MeadWestvaco Healthcare Packaging
Model: Shellpak
ASTM Type: XIII A

Description:

This is a semi-rigid blister reclosable package. This package consists of a plastic outer carton containing a blister card (Figure 1).

Figure 1

The front of the blister card covers each tablet with a clear semi-rigid plastic film (Figure 2A) and the back of the card can be foil (Figure 2B) or a paper and foil combination (Figure 2C).

Figure 2A

Figure 2B

Figure 2C

The package is opened by pressing a tab (indicated by the arrow in Figure 3) on the front of the outer carton, holding it down, and pulling the exposed portion of the blister card to the right.

Figure 3

A plastic hook inside the package prevents the blister card from being fully removed from the package (Figure 4).

Figure 4

Once the blister card is exposed, a tablet is pushed out.

The manufacturer's instructions on the front of the outer carton are below (Figure 5):

**Press button
while pulling
out inner
blister card.**
