

Manufacturer: Rieke Corporation
Model: Stolz HZ24CR
ASTM Type: IB

Description:

This is a one-piece plastic continuously-threaded closure on a metal can (Figure 1).

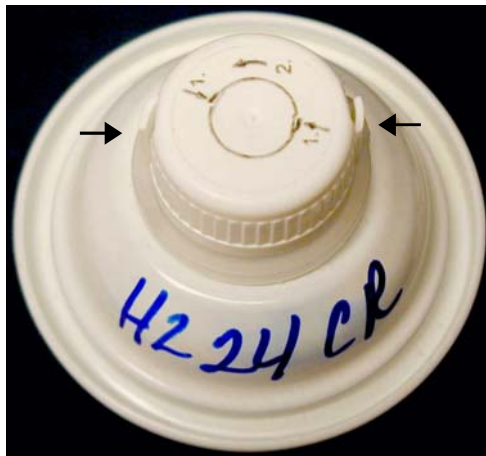

Figure 1

The closure is opened by squeezing two tabs 180° apart on the sides of the closure and simultaneously turning it counterclockwise. The tabs on the sides of the closure (Figure 1) lock into two bayonets 180° apart on the neck finish of the can to keep the package closed (Figure 2).

Figure 2

There is a plug inside the can's neck finish that must be pulled out to dispense product. The manufacturer's instructions on the closure are (Figure 3):

Figure 3

(There is a picture of two concentric circles on top of the closure. There are two tabs sticking out 180° apart on the inner circle and an arrow labeled 1 pointing to each tab. In the outer circle there is a second arrow labeled 2 pointing in the counterclockwise direction.)
