U.S. Consumer Product Safety Commission PRIVACY IMPACT ASSESSMENT				
Name of Project:	Visitor Registration			
Office/Directorate:	EXIT/ITTS			
A. CONTACT INFORMATION				
Person completing PIA: (Name, title, organization and ext.)	Terry Bard, Director, EXIT/ITTS 301.504.7700			
System Owner: (Name, title, organization and ext.)	Terry Bard, Director, EXIT/ITTS 301.504.7700			
System Manager: (Name, title, organization and ext.)	Ming Zhu, Chief, Application Development Branch 301.504.7517			
B. APPROVING OFFICIALS	Signature	Approve	Disapprove	Date
System Owner	Terry Bard	X		3/11/10
Privacy Advocate	Linda Glatz, ITPP			
Chief Information Security Officer	Patrick Manley, ITTS	X		3/11/10
Senior Agency Official for Privacy	Chaelarh	.,		2/0/10
System of Record?YesNo	Mary James, Director, ITPP	X		אוויג
Reviewing Official:	Patrick D. Weddle, AED, EXIT	人		3/16/10
C. SYSTEM APPLICATION/GENER	RAL INFORMATION			
Does this system contain any personal information about individuals? (If there is NO information collected, maintained, or used that is identifiable to	Yes			
the individual, the remainder of PIA does not have to be completed.)	Yes			·····
2. Is this an electronic system?	res			

D. DATA IN THE SYSTEM		
What categories of individuals are	Public, Employees, Contractors	
covered in the system? (public,		
employees, contractors)		
2. Generally describe what	First Name, Last Name, Organization, date of visit, sponsor of visitor (federal	
data/information will be collected in	employees only), and an alternate contact for the visit	
the system.		
3. Is the source of the information from	CPSC federal employees manually enter the data into the system. Contractors are	
the individual or is it taken from	prohibited.	
another source? If not directly from		
individual, then what other source? 4. How will data be checked for	The convitience of the information and with the section of the information of the informa	
completeness?	The security guard verifies the information entered into the system against a photo ID	
5. Is the data current? (What steps or	presented by the visitor when they are signing into the building The data is static and not kept current	
procedures are taken to ensure the data	The data is static and not kept current	
is current and not out-of-date?)		
6. Are the data elements described in	No	
detail and documented? (If yes, what		
is the name and location of the		
document?)		
E. ATTRIBUTES OF THE DATA		
1. Explain how the use of the data is	The system provides a way for staff to register guest into the building. When the	
both relevant and necessary to the	guest arrives, the guard verifies their identity and prints a visitor's badge. The badge	
purpose for which the system is	has their first and last name, affiliation if entered, and the sponsoring employee	
being designed?		
2. For electronic systems, if the data is	All transactions conducted by administrators and developers on the database are	
being consolidated, what controls are	logged. This includes who is accessing the data and when.	
in place to protect the data from unauthorized access or use? Explain.		
3. How will the data be retrieved? Can it	The application serves up the employee's meetings as they entered them. The	
be retrieved by a personal identifier?	application does not allow the user to perform a search by any attribute	
If yes, explain and list the identifiers	application does not allow the user to perform a search by any attribute	
that will be used to retrieve		
information on the individual.		
4. What opportunities do individuals	None. They must be entered into the system to gain access to CPSC's controlled	
have to decline to provide	space.	
information or to consent to		
particular uses of the information?		
F. MAINTENANCE AND ADMINISTI	RATIVE CONTROLS	
1. What are the retention periods of data in this system?	Data in this system has not been scheduled and will be kept indefinitely.	
2. What are the procedures for	Procedures do not exist at this time.	
disposition of the data at the end of		
the retention period? How long will		
the reports produced be kept?		
Where are the procedures		
documented?		
3. For electronic systems, will this	No	
system provide the capability to		
identify, locate, and monitor		
individuals? If yes, explain. 4. For electronic systems only, what	Network Access Controls limit access to the data. All transactions conducted by	
To a Green office systems offiny, what	Preswork Access Controls limit access to the data. All transactions conducted by	

controls will be used to prevent	administrators and development the details and Till III III
•	administrators and developers on the database are logged. This includes who is
unauthorized monitoring?	accessing the data and when
5. Is this system currently identified as a	No
CPSC system of records? If so,	
under which notice does the system operate?	
	NIA
6. If the system is being modified, will the Privacy Act system of records	N/A
notice require amendment or	
revision? Explain	
TOVISION: EXPIANT	
G. ACCESS TO DATA	
Who will have access to the data in	System administrators and developers have global access to all data. Users are able
the system? (e.g., contractors,	to see data they entered up to the point that they delete it. Once they do they cannot
managers, system administrators,	retrieve data from the database
developers, other).	
2. What controls are in place to prevent	Each user receives annual Privacy training.
the misuse of data by those having	
access? (Please list processes and	
training materials.)	
3. Who is responsible for assuring	IT Administrators, Supervisors, and the employee
proper use of the data?	
4. Are contractors involved with the	No
design and development of the	
system and will they be involved with	
the maintenance of the system? Are	
contractors involved in the collection	
of the data? If yes, were Privacy Act contract clauses inserted in their	
contract clauses inserted in their contracts and other regulatory	
measures addressed?	
5. Do other systems share data or have	No
	140
	No
have access to the data in this	
system? If yes, how will the data be	
used by the other agency?	
7. Will any of the personally identifiable	No
information be accessed remotely or	
physically removed?	
system? If yes, how will the data be used by the other agency? 7. Will any of the personally identifiable information be accessed remotely or	No No
