

MEETING LOG

CPSC Meeting
November 14, 1994
Comments Received

Date: November 14, 1994

Participants:

Commission:
Chairman Ann Brown

Outsiders:
James J. Walter, Technical
Director, ACTS Testing Labs, Inc.

Eric Stone

Daniel C. Oliverio, General Counsel
ACTS

Nick Wakeman, Product Safety Letter

Summary:

ACTS wished to introduce themselves to the chairman and explain the nature of the work they do. They do a lot of premarket testing but also look at some products in the marketplace. They urge firms to comply with all CPSC requirements including reporting.

ACTS asked if any action had been taken on their nomination of Toys R Us for a Chairman's award and were told that the Chairman is considering the nomination and has asked Toys r Us's chairman to participate in a "Safety Sells" conference next spring.

The participants discussed the question of whether there should be some sort of CPSC certification of laboratories and whether and how labs should share safety information with the Commission.
