**LOG OF MEETING
DIRECTORATE FOR ENGINEERING SCIENCES**

SUBJECT: Atlantic Thread & Supply Company, Inc.
DATE OF MEETING: October 20, 2010
LOCATION: CPSC Offices, Bethesda Towers
SOURCE OF LOG: Allyson Tenney, Project Manager, ESFS
CPSC ATTENDEE(S): See attendance list
NON-CPSC ATTENDEE(S): See attendance list

CPSC staff met with Mr. Vincent Diaz, President of Atlantic Thread & Supply Company, Inc. Mr. Diaz, Atlantic thread, requested the meeting to introduce CPSC staff to his *continuous sampling plan* (CSP) that was developed for determining a test plan. The CSP is intended to be used by any manufacturer who chooses to display a third party certification mark on mattresses that are compliant with 16 CFR Part 1633-*The Standard for the Flammability (open-flame) of Mattress Sets*. Mr. Diaz considers the CSP to be reasonable, data driven, cost effective, valuable, and enforceable. The plan has been discussed with an internationally known and ISO certified laboratory.

The meeting was for informational purposes only.
