SUBJECT : Petition Requesting a Performance Standard to Distinguish and Regulate  
 “Hazardous Pillow-Like” Crib Bumpers from “Non-hazardous Traditional”  
 Crib Bumpers  
 Ballot Vote Due - June 12, 2012

The Office of the General Counsel (OGC) has determined that correspondence from the Juvenile Products Manufacturers Association (JPMA), (“Petitioner”), should be docketed as a petition. Petitioner believes that claims of increased risk to infants from traditional crib bumper use are unfounded. Petitioner states that despite information to the contrary regarding the safety of traditional crib bumpers, some are advocating banning bumpers altogether from the marketplace. Petitioner believes that the banning of crib bumpers may lead to caregivers adding unsafe soft bedding to cribs, and therefore, requests that the Commission initiate rulemaking to distinguish and regulate “hazardous pillow-like” crib bumpers from “non-hazardous traditional” crib bumpers.

In accordance with the Commission Directive on Operational Procedures for Petitions (Order No. 0605.0, April 26, 1993), the OGC has drafted a notice for publication in the *Federal Register*, inviting comments on the petition for a period of 60 days. The draft notice is attached.

**SUPPLEMENTARY INFORMATION:** The Commission has received correspondence from the Juvenile Products Manufacturers Association (JPMA), (“petitioner”), dated May 9, 2012, requesting that the Commission initiate rulemaking to distinguish and regulate “hazardous pillow-like” crib bumpers from “non-hazardous traditional” crib bumpers under sections 7 and 9 of the Consumer Product Safety Act (“CPSA”). The Commission is docketing this request as a petition under the Consumer Product Safety Act. 15 U.S.C. 2056 and 2058. Petitioner states that, despite information to the contrary regarding the safety of traditional crib bumpers, some are advocating banning bumpers altogether from the marketplace. Petitioner believes that banning traditional crib bumpers may lead to

caregivers adding unsafe soft bedding to cribs to serve as a protective barrier from the tight dimensions and hard wooden surface of the crib slats. Petitioner includes a third party review of previous studies of crib bumper pads as support of the fact that claims of increased risk to infants from traditional crib bumper use are unfounded. Petitioner also includes a copy of proposed ASTM performance requirements that petitioner believes provide a reasonable basis for a mandatory crib bumper performance standard.

By this notice, the Commission seeks comments concerning this petition. Interested parties may obtain a copy of the petition by writing or calling the Office of the Secretary, U.S. Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923. A copy of the petition also will be made available for viewing under “Supporting and Related Materials” in [www.regulations.gov](http://www.regulations.gov) under this docket number.
