**SUPPLEMENTARY INFORMATION:**

The Consumer Product Safety Commission ("CPSC" or "Commission") has reason to believe that unreasonable risks of injury and death are associated with bunk beds that are constructed so that children can become entrapped in the beds' structure or become wedged between the bed and a wall.

On March 3, 1999, the Commission proposed a rule that, if issued, would mandate bunk bed performance requirements to reduce this hazard. 64 Fed. Reg. 10245.<sup>1</sup> These requirements would be issued under both the Federal Hazardous Substances Act ("FHSA"), for bunk beds intended for use by children, and the Consumer Product Safety Act ("CPSA"), for beds not intended for children.

As required by Section 9(d)(2) of the Consumer Product Safety Act, 15 U.S.C. 2058(d)(2), there will be an opportunity for interested parties to present oral comments on the proposal. See the information under the headings "DATES" and "ADDRESSES" at the beginning of this notice. Any oral comments will be part of the rulemaking record.

Commenters should limit their presentations to approximately 10 minutes, exclusive of any periods of
