QUESTIONNAIRE INSTRUCTIONS

I. TYPOGRAPHIC CONVENTIONS

[Off-script interviewer instructions are in square brackets]
{Programmer instructions are in curly brackets}
Notes to and questions for client are shown in **bold face type**
Changes where words are omitted from the text are noted in ~~strikethrough~~
Changes where words are added to the text are noted in underline
Question responses that should be read to respondents are noted in lower caps
Question responses that should not be read to respondents are noted in UPPER CAPS

GENERAL QUESTIONNAIRE FORMATTING

{MUL=#} indicates the number of available answer choices
{NUM=#} indicates the number of available digits for numerical keypunching
Responses in ALL CAPS are not to be read to the respondent by the interviewer
In responses requiring open-ended numeric responses, acceptable range of responses allowed by CAI system are specified
All "other" answer categories are coded as "<u>66</u>" and an open-ended "specify" response is always collected

Section D. Mouthing Behavior

HELLO, I'm _____ calling from Macro International for the Consumer Product Safety Commission. May I please speak with (Restore KA)?

[If unavailable, schedule callback. If transfer, repeat introduction.]

Last week we sent you some information regarding a study about potential health risks children face when they put toys and other objects in their mouths.

D1   Did you receive this information?

D1.1   YES
D1.2   NO [We'll mail another information package to you.] {TERMINATE - REMAIL}
                                                             {SET REMAIL QUOTA}
D1.9   [REF]   {TERMINATE - REMAIL}
                                                             {SET REMAIL QUOTA}

D2.   The information package described our study and requested that you observe {RESTORE CHILDNAME} to determine whether or not (he/she) "mouths" certain types of objects. By "mouthing", we mean sucking, chewing or otherwise putting an object into (his/her) mouth.

You were asked to observe your child at four separate times, for a period of 15 minutes each time, and to answer a few questions about your child's behavior during each session. I'd like to talk with you about what you observed. It would be helpful if you had the booklet we sent for you to complete with you while we talk. Do you have this booklet handy?

D2.1   YES
D2.2   NO   [If not, please encourage respondent to locate book prior to continuing with survey]

D3.   Have you completed observing {RESTORE CHILDNAME} all four times?

D3.1   YES
D3.2   NO   [Please do so in the next two days and we will call back at that time.]
              [If respondent refuses, terminate and code as initial refusal.]

PRED4.A   As I mentioned previously, the booklet we sent asked you to observe your child four times and record what you saw. I would like to go through the information you listed in your booklet.

D4.A   Now, I'll be talking with you about Session One the first time you observed your child. What was the date you observed your child?

D.4A.1 [MM/DD/YY]   {Range: Month 1 to 12; Day 1 to 31; Year 99 or 00}
D.4A.7 [DK]
D.4A.9 [REFUSED]

D4.B   At what time did you observe your child?

Section D. Mouthing Behavior

HELLO, I'm _____ calling from Macro International for the Consumer Product Safety Commission. May I please speak with {Restore KA}?

[If unavailable, schedule callback. If transfer, repeat introduction.]

A few months ago you agreed to participate in the Consumer Product Safety Commission's mouthing behavior study. We previously asked you to observe your child for four 15-minute periods and complete an observation booklet. Many parents indicated to us that this request was too difficult and, as a result, they were unable to continue to participate in the study.

In response to parent comments, we have removed this portion of the study. However, it is still essential that your child continue to participate in the study's observational component where a trained researcher will visit your home to observe your child. You will be reimbursed $100 for your participation.

In responses requiring open-ended numeric responses, acceptable range of responses allowed by CAI system are
    specified
All "other" answer categories are coded as "66" and an open-ended "specify" response is always collected

Codebook Notes:

For each question in the loop, A4, A5, A6, and A6F the first response is given _1, the second _2, and so on for
each iteration of the loop. For example, A5 for the third child would be A5_3.

Question B3. B3 is asked for each toy listed in B2. The respondent was allowed to give up to 4 responses for
each toy. The coding is as follows: B3_A_1 is the first material in the first toy. B3_A_2 is the second
material in the first toy (if given), B3_A_3 is the third material of the first toy (if given), B3_A_4 is the fourth
material of the first toy (if given), and B3_OA is the open-ended response of the material for the first toy.
This same pattern continues for B3_B, B3_C, B3_D and B3_E.

Section C.   Description of Study/Initial Recruitment

That concludes this part of the interview. We would like to mail some information to you that describes the remainder of the study. The Consumer Product Safety Commission is researching the potential health risks that children face when they put non-food items, such as toys and other objects, in their mouths. Some of the information needed for the study will require you to observe your child during normal activities. The information we are mailing describes the study in more detail and provides instructions for observing your child

C1.   What is your mailing address?

[Interviewer prompt: Your participation in this study is very important]

C1.1	Record Name:	{25 character open-end}
		{SET KA=FIRST NAME IN C1.1}
C1.2	Record Street:_____	{50 character open-end}
C1.3	Record Town/City:_____	{25 character open-end}
C1.4	Record Zip Code:_____	{Range 1,99999}
C1.9	[REF]	{SET REFUSED ADDRESS QUOTA, ASSIGN INITIAL REF}

Name coded as C1_A
Street coded as C1_B
Town/City coded as C1_C
Zip coded as C1_D

C2.   We will call you back in about a week after you have received the materials in the mail. What is the best phone number to reach you at when we call you back?

C2.1	[RECORD NUMBER]	
C2.9	[REF]	[CODE REF AS 9999999999]

C3.   What would be a good time to reach you?

C3.1	RECORD DATE/TIME_____[Format MM/DD:HH]
C3.2	ANY TIME IS O.K.
C3.99	[REF]

{IF CHILD < 3 YEARS OLD, ELSE GO TO CLOSING}

G1.   The informational materials that will be sent to you describe another phase of this research called the observational study. In the observational study, a trained researcher will observe your child in his or her natural environment. Your child's regular schedule would not be altered in any way. You will receive $100 for participating in this study.

CLOSING

Thank you for your participation in this important research project. Finally, we would like to play a recorded statement from Anne Brown, Chairman of CPSC, about the importance of this study and your participation. You may hang up at the end of the recording.

QUESTIONNAIRE INSTRUCTIONS

I. TYPOGRAPHIC CONVENTIONS

[Off-script interviewer instructions are in square brackets]
{Programmer instructions are in curly brackets}
Notes to and questions for client are shown in bold face type
Changes where words are omitted from the text are noted in ~~strikethrough~~
Changes where words are added to the text are noted in underline
Question responses that should be read to respondents are noted in lower caps
Question responses that should not be read to respondents are noted in UPPER CAPS

GENERAL QUESTIONNAIRE FORMATTING

{MUL=#} indicates the number of available answer choices
{NUM=#} indicates the number of available digits for numerical keypunching
Responses in ALL CAPS are not to be read to the respondent by the interviewer
In responses requiring open-ended numeric responses, acceptable range of responses allowed by CAI system are specified
All "other" answer categories are coded as "66" and an open-ended "specify" response is always collected

Section D. Mouthing Behavior

HELLO, I'm _____ calling from Macro International for the Consumer Product Safety Commission. May I please speak with {Restore KA}?

[If unavailable, schedule callback. If transfer, repeat introduction.]

Last week we sent you some information regarding a study about potential health risks children face when they put toys and other objects in their mouths.

D1   Did you receive this information?

        D1.1   YES
        D1.2   NO [We'll mail another information package to you.] {TERMINATE - REMAIL}
                                                                  {SET REMAIL QUOTA}
        D1.9   [REF]   {TERMINATE - REMAIL}
                                                                  {SET REMAIL QUOTA}

D2.   The information package described our study and requested that you observe {RESTORE CHILDNAME} to determine whether or not (he/she) "mouths" certain types of objects. By "mouthing", we mean sucking, chewing or otherwise putting an object into (his/her) mouth.

You were asked to observe your child at four separate times, for a period of 15 minutes each time, and to answer a few questions about your child's behavior during each session. I'd like to talk with you about what you observed. It would be helpful if you had the booklet we sent for you to complete with you while we talk. Do you have this booklet handy?

        [Interviewer: Press "enter" to continue, or "T" for Termination Screen]

D3.   Have you completed observing {RESTORE CHILDNAME} all four times?

        D3.1   YES
        D3.2   NO   [Please do so in the next two days and we will call back at that time.]
                                [If respondent refuses, terminate and code as initial refusal.]

PRED4.A   As I mentioned previously, the booklet we sent asked you to observe your child four times and record what you saw. I would like to go through the information you listed in your booklet.

D4.A   Now, I'll be talking with you about Session {Select One, Two, Three, Four} the first time you observed your child. What was the date you observed your child?

        D.4A.1 [MM/DD/YY]   {Range: Month 1 to 12; Day 1 to 31; Year 99 or 00}
        D.4A.7 [DK]
        D.4A.8 [REFUSED]

For coding: Session One month is coded as D4AM_1, day is coded as D4AD_1, and year is coded as D4AY_1
            Session Two month is coded as D4AM_2, day is coded as D4AD_2, and year is coded as D4AY_2
            Session Three month is coded as D4AM_3, day is coded as D4AD_3, and year is coded as D4AY_3
            Session Four month is coded as D4AM_4, day is coded as D4AD_4, and year is coded as D4AY_4

D4.B   At what time did you observe your child?

[Interviewer note: use military time]

D4B.1   [TIME]

D4.   In this session, did you see your child place any non-food items in his/her mouth?

    D4.1   YES
    D4.2   NO   {SKIP TO NEXT SESSION}
    D4.7   [DK]
    D4.9   [REFUSED]

{BEGIN OBSERVATIONAL LOOP 1, ASK FOR EACH LINENUM}

PRED5. Let's go over the form you used to record what your child was mouthing. How many lines of the form did you fill out for Session One?

    PRED5.1   [NUMBER]   {Range: 1-40}   {SET LINENUM}

D5.   How would you describe the item your child put in his/her mouth while you were watching him/her? Which of the following categories would you put it in?

[READ LIST TO RESPONDENT THE FIRST TIME, THEN READ ONLY WHEN RESPONDENT REQUESTS HELP OR HAS DIFFICULTY CLASSIFYING.]

This loop is coded as follows: pdXYY_ZZ
        Where: X = the observation number (1-4)
               YY = 2 digit line number (1-40)
               ZZ = response category for toy description below (1-10)

(For example, if pd101_01 = 1 for 17 respondents, that means in the first observation period, 17 responses of pacifier where given for line 1.)

        {MUL=5}

    D5.1   Pacifier
    D5.2   Teether
    D5.3   Toy, hard plastic
    D5.4   Toy, soft plastic [soft plastic is something you could bend, stretch or dent easily without breaking]
    D5.5   Toy, wood
    D5.6   Toy, cloth fabric
    D5.7   Toy, metal , aluminum
    D5.8   Toy, other material
    D5.9   Anatomy, (fingers, hand, hair, etc.)
    D5.66 OTHER [specify]

D5.A   How long was the item in your child's mouth?

In data set – new variables have been created for the duration – in minutes and seconds – given for each line of every observation. For Session One the variables are: d5t_101, (for the duration given in line one), d5t_124, (for the duration given in line 23. Session Two variables are d5t_201 – d5t_235. Session Three variables are d5t_301 – d5t_332. Session Four variables are d5t_401 – d5t_433.

D5.A1 [MM/SS] {Range: Minutes 0-15, Seconds, 0-59} Minutes coded as D5A, Seconds as D5M

D5.A7 [DK]

{END OBSERVATIONAL LOOP}

D12. {IF D4.C, D6.B, D8.B AND D10.B ARE "NO", ASK D12, ELSE SKIP D13}

Do you remember at about what age {RESTORE CHILDNAME} stopped mouthing soft plastic toys ?

[Interviewer prompt: If unsure, use birthdays or seasons to get best approximation]

For coding: D12 = YY, D12M = MM

Section E. Childcare Arrangements

E1   I am going to read a list of different kinds of programs and people who care for children. I'd like you to tell me which ones you used for {RESTORE CHILDNAME} at least once during the past month.

[Check all that apply.]

{MUL=7}

In the data set, this question is broken down into 9 variables: e101, e102, e103,...,e199. All multiple responses have been combined into these nine variables, for example, all "Head Start" responses are reflected as e101 = 1.

E1.01   Head Start
          0 = NO
          1 = YES

E1.02   A day or group-care center, nursery, preschool, or pre-kindergarten
          0 = NO
          1 = YES

E1.03   A before or after-school care program outside your home [Ask if child is 2 or older.]
          0 = NO
          1 = YES

E1.04   Childcare or babysitting in your home by someone other than you or your spouse/partner
          0 = NO
          1 = YES

E1.05   Childcare or babysitting in someone else's home.
          0 = NO
          1 = YES

E1.06   [DID NOT PARTICIPATE IN CHILDCARE PROGRAM OF ANY KIND]
          0 = NO
          1 = YES

E1.66   OTHER [SPECIFY] {70 character open-end}   {Responsed coded as E1_O}
          0 = NO
          1 = YES

E1.77   [DK]

Section G: Recruitment

G1.   The informational materials that were sent to you described another phase of this research called the observational study. In the observational study, a trained researcher will observe your child in his or her natural environment. Your child's regular schedule would not be altered in any way. You will receive $100 for participating in this study. May we have our researchers call you?

     G1.1   YES
     G2.2   NO   {TERMINATE}

G1.A   Thank you for agreeing to be part of our study. A trained researcher from ITS/RAM will be contacting you in the next few days to discuss the second part of this study.
