

ASTM F15.17 Strollers Task Group
Phone Conference Log – September 28, 2011

1/24/11
J

SUBJECT:

Proposed Stroller Mandatory Rule

CPSC STAFF ATTENDEES:

Jake Miller (ES), Greg Rea (LS), Leah Wade (GC), Rana Balci-Sinha (HF), Stefanie Marques (HS)

List of non-staff attendees will be provided by ASTM F15.17 sub-committee.

SUMMARY OF MEETING:

Jake Miller reviewed the latest draft of the proposed mandatory performance requirements, "2011-08-15 Rev E Stroller standard proposal Clair.docx" (distributed before the call and available by emailing Jake Miller at jmiller@cpsc.gov), which includes changes and comments suggested by CPSC staff and the ASTM stroller task group. Clair Arsenault, Newell Rubbermaid, provided significant comments and changes related to the proposed head entrapment and brake test requirements.

The discussion focused on developing new stroller performance requirements in the following areas for inclusion in the mandatory rule:

- Head Entrapment on Travel Systems
- 2D Stroller Frame Hinge Pinch Points
- Lock/Latch Integrity
- Wheel Detachment
- Brake Engagement
- Buckle Release
- Drawstrings and Accessories
